

	HSE POLICY	Document Number: ATC-POL-HSE
		Date: 01-06-2025
		Revision: 0

ACCURATE TEST OIL & GAS FIELD INSPECTIONS (ATC) provides specialized services to the oil and gas industry, including **Lifting Inspection, NDT Services, Rope Access, and Equipment Rental**. We are committed to protecting the health and safety of our personnel, safeguarding the environment, and delivering our services with integrity and responsibility.

Our dedication to the continuous improvement of health and safety, environmental protection, and regulatory compliance is demonstrated throughout our operations. ATC ensures that its employees, subcontractors, and service partners align with our Health, Safety, and Environmental (HSE) principles and follow applicable legal and client-specific requirements.

We believe that strong HSE performance stems from a culture of awareness, responsibility, and engagement across all levels of the organization. Our management actively promotes safe behaviors, environmental stewardship, and a proactive approach to risk prevention.

ATC is committed to:

- Creating and maintaining a safe and healthy working environment across all projects.
- Preventing injuries, occupational illnesses, and unsafe conditions.
- Complying with applicable HSE laws, regulations, and standards, including ISO 45001:2018 and ISO 14001:2015.
- Empowering all personnel with the authority to stop unsafe work.
- Promoting worker consultation and participation in HSE decisions and initiatives.
- Providing appropriate training and resources to ensure HSE competence.
- Managing and reducing environmental impact through responsible operations.
- Identifying and controlling HSE risks through systematic assessment and mitigation.
- Setting measurable HSE objectives and targets and reviewing them regularly.
- Driving continuous improvement through audits, reviews, and performance monitoring.

These commitments are embedded in our daily operations, championed by leadership, and upheld by every team member.

Mr. Mohamed Faruq
General Manager
