

We are full LEEA membership company and approved from Aramco in (below the Hook, NDT, Drops) along with ABS and DNV Classes

OUR COMPANY

Accurate Test (ATC) provides high-quality inspection and testing services to the oil and gas industry. Our expertise spans Lifting Equipment Inspection, Non-Destructive Testing (NDT), Rope Access Solutions, and Specialized Equipment Rental.

With a skilled team and approvals from LEEA, Saudi Aramco (Below the Hook), and DROPS, we deliver reliable, safe, and compliant solutions tailored to operational needs—onshore and offshore.

At Accurate Test, we combine advanced tools with technical excellence to help our clients meet the highest standards of safety and performance.

ACCURATE TEST
OIL & GAS FIELD INSPECTIONS

OUR VISION

At Accurate Test (ATC), our goal is simple — to deliver precise, safe, and reliable inspection solutions that our clients can depend on. With a commitment to quality and compliance, we support the oil and gas industry through expert service and trusted results. We look forward to being your partner in operational excellence.

OUR SERVICES

Inspection & Certification of Lifting Gears

- Shackles
- Webbing slings
- Round slings
- Chain/Chain slings
- Wire rope/ Wire rope slings
- Hooks
- Clamps
- Chain blocks/Lever hoists
- Manual winches
- Snatch blocks / Pulley/Sheave blocks
- Eye bolts
- Turnbuckles/Rigging Screw
- Lifting pad eyes
- Magnetic lifters
- Towing gears/ Mooring gears

Inspection & Certification of Lifting Equipment

- Pedestal cranes/Deck cranes/ Provision cranes
- EOT cranes
- Jib Cranes
- Floor cranes
- Cargo Grab / Crane Grab
- Winches
- Gangways, Accommodation Ladders, and MOT Ladders
- Travelift
- Forklifts/Reach Stacker
- Pallet Trucks
- Offshore Containers/Baskets
- Material Baskets
- Man Basket
- Cylinder Racks
- Skids
- Spreader Beams / Lifting Beams
- Runway beams / Monorails
- powered Hoists
- BOP Beam & Hoists
- Davits and LARS
- Lifting Pad Eyes Pull test
- Anchor bolts Pull test
- Magnetic Rope Testing (MRT)
- Rocking tests for Cranes
- Bollard pulls tests
- Destruction tests for wire ropes.
- Wire rope Socketing
- Wire rope spooling services (Removal / installation of wire rope onto Winch/Crane)

Offshore Platform Services

- Non-Destructive Testing
- Blasting & Coating
- Rope Access Welding & Fabrication
- Safety System Installation (Fall Arrest, Netting, Decking)
- DROPS Survey and Rectification
- Derrick and Mast Inspection
- Bolt Torquing & Tensioning
- Lifting Equipment Inspection & Crane Load Test
- Class-Approved Inspection
- Under deck Structural Inspections

Flare Stack Services

- Visual & integrity surveys, verticality alignment checks
- Dropped Object Prevention (DROPS) surveys
- Flare tip removal, replacement & refurbishment
- Guy wire tensioning & replacement
- Erection and demolition of flare stacks
- Bolt Torquing & Tensioning
- Blasting, coating & corrosion protection

Vessels & Barges

- Hull Inspection & UT Thickness Gauging
- Marine Coating & Corrosion Protection
- Class-Approved Inspections
- Structural Steel Renewal & Welding Repairs
- Lifting Gear Inspection & Crane Load Test
- Stencil Works
- Non-Destructive Testing
- Hydro blasting
- Marine Growth Removal

Conventional – NDT Services

- Ultrasonic Thickness Measurement (UTM)
- Dropped Object Survey
- Ultrasonic Testing (UT) — Shear Wave or Weld Inspection
- Ferrite Testing (FT)
- DNV/ABS Class Inspection Survey- All Conventional NDT Methods
- Holiday Testing
- Paint Thickness Coating Inspection
- Vacuum Box Testing Services
- Magnetic Particle Testing (MT) — Visible & Fluorescent
- Liquid Penetrant Testing (LPT) — Visible & Fluorescent
- General & Close Visual Inspection (CVI) — Video/Photographic Surveys
- Remote Visual or Borescope Inspection (RVI)
- Hardness Testing (HT)
- Positive Material Identification (PMI)

Advanced - NDT Services

- Ultrasonic Corrosion Mapping
- Phased Array Ultrasonic Testing (PAUT)
- Time Of Flight Diffraction Testing (TOED)
- Surface Eddy Current Testing (ECT)
- Alternating Current Field Measurement (ACFM)
- Magnetic Flux Leakage (MFL) - Floor Tank

Rope Access

- Lifting inspections at height
- NDT at inaccessible locations
- Bolt tightening
- Drop tests
- Training center
- Rope access welders
